

Lambda Research Corporation is pleased to announce our free seminar on LED lighting design using TracePro in Milano, Italy on Friday, September 28th.

EVENT SCOPE

This seminar demonstrates how to use Lambda Research's TracePro software to design luminaires that use LED sources. In this seminar, attendees will learn how to create reflectors, define sources and design lamps to achieve a desired luminaire performance.

EVENT LOCATION

Politecnico di Milano

Laboratorio LUCE - Department of Design – <http://www.luce.polimi.it/it>

Via Candiani, 72 - 20158 Milano – ITALY - [Location Map](#)

EVENT AGENDA

This all-day seminar will take place on Friday, September 28th, 2018, and will be given in English.

Attendees will be supplied a computer with TracePro installed to use during this session.

- Morning Session from 9:00 am - 12:00 noon: “Designing and Optimizing Luminaires Using TracePro”
- Lunch break 12:00 noon - 1:30 pm
- Afternoon Session from 1:30 - 4:30 pm: Workshop - Attendees will be able to practice using TracePro with a series of instructor led tutorials on luminaire analysis and optimization

EVENT REGISTRATION

This seminar is FREE OF CHARGE - Please register now, number of seats is limited! To register, fill in our registration form below and return it by email to sales@lambdares.com or lab.luce@polimi.it
